

Measures to prevent the spread of coronavirus

1. Reduce the number of visitors to the company

We ask our partners not to fix personal meetings within our factory premises or order colleagues to visit our partners unless it is absolutely necessary.

Meetings are conducted via teleconference.

2. Declaration

If you would still visit us, then please make the following declaration upon your arrival at the company:

Have you been to a country affected by coronavirus (China, Korea, Italy, Iran) over the past two weeks?

If your answer is yes, the company may refuse your entry!

Are you / Have you been interacting with anyone who has been diagnosed with coronavirus?

If your answer is yes, the company may refuse your entry!

Do you have any symptoms of coronavirus (dry cough, fever, breathing difficulty)?

If your answer is yes, the company may refuse your entry!

Visitors hereby accept Chemark Zrt.'s hygiene recommendations. Wash and sanitize your hands upon entry.

3. Use of hand sanitizers

Hand sanitizers and relevant hygiene information are available for employees and visitors in a number of locations throughout the company.

4. Filter temporary workforce

We shall contact temporary work agencies to proceed as specified in clause 2 above.

5. Avoid infected areas

We ask our employees to refrain from visiting infected areas. Anyone who has visited an infected area is requested to self-quarantine.
